

MATERIAL DATA SHEET

PRODUCT NAME	Greener Shipping - Greener Saving	
PRODUCT DESCRIPTION	An Organic Catalyst for use in <u>all</u> internal combustion engines and with all marine fuels.	
FUNCTION	The Organic Catalyst coats the internal surfaces of the combustion chamber which improves fuel efficiency, whilst substantially reducing exhaust emissions. It also protects the engine by increasing the lubrication and effectively cleaning contaminants.	
APPLICATION	Our engineers will carry out a trial to determine correct dosage and application instructions. It is not necessary for any additional equipment to be fitted.	
PRODUCT COMPONENTS	Proprietary 100%	
PHYSICAL PROPERTIES	Appearance	Orange-Brownish Liquid
	Odour	Mild turpentine like odour
	Boiling point	480F (249 C)
	Vapour Pressure	0.03 MM Hg @ 40 C
	Vapour Density	Air = 1
	Specific Gravity (H2O=1)	N/D
	Evaporation Rate (BUTYL.Ac=1)	N/D
	Solubility in Water (% by Weight)	Insoluble
	Solubility in other Solvents	Alcohol; Ether
HAZARD IDENTIFICATION Combustible:	Store in a cool place. Avoid exposure to heat sources.	
HAZARD CLASSIFICATION Harmful:	Eye irritation	Proven to be moderately irritating to the eyes
	Skin irritation	Proven to be moderately irritating to the skin
	Systemic effects	Moderately toxic by ingestion DO NOT INGEST PRODUCT Moderately toxic by inhalation. USE IN WELL VENTILATED PREMISES
ENVIRONMENT	Tested and registered with the US Environmental Protection Agency	
WARRANTY	GS does not affect the engine manufacturer's recommendations as to the SAE Classification of engine oils. GS complies with the lubricant specification required by internal combustion manufacturers.
